# We think our School is the best.

(We know this is biased)

When our teachers asked us to list all the amazing activities and experiences we get up to during our time at Echelford, we came up with this list. We didn't even mention the brilliant lessons.

We wanted to share this list of the cool, fun and pretty much incredible activities we have the chance to do at School with you.

How many of these things have you done? When do you want to start?
