

History:

- Historical interpretation is how we would describe events from the past.
- Sources give us information about events that have happened in the past.
- There are two types of sources that we can study - primary and secondary.
- A diary is a source that can tell us what a historical event was like for one person who lived at the time. An example of this is Samuel Pepys' diary during the Great Fire of London.
- The Great Fire of London was from Sunday 2nd September to Thursday 6th September 1666.
- A fire started in Thomas Farriner's bakery on Pudding Lane on 2nd September 1666.
- It spread quickly due to the structure and materials of buildings in Tudor London and the dry, windy conditions.
- People ran away towards the river. People tried to put out the fire by pulling down buildings. The fire destroyed many buildings in London.
- The fire was put under control after 4 days.
- Following the fire, King Charles II ordered changes to the way houses and roads should be built.

Science:

- Plants can grow from seeds or bulbs. Seedlings then grow into mature plants.
- Seeds germinate, then the stem grows up, roots grow down, a bud forms, leaves grow.
- Germinate means when a seed puts out shoots.
- Bud is the beginning of the flowering part of the plant.
- A plant needs light, water, space and a suitable temperature to grow.

DT:

- A hinge can be attached to two things to make one of them move. You can find a hinge on a door.
- Rolling up paper can create a tube and this can be used to strengthen or stiffen a structure.
- Scissors are a tool to use for a neat cut, you could also tear and fold card.
- There are different ways you can assemble frame structures. They could be made from materials such as wood, cardboard, paper, metal or plastic.

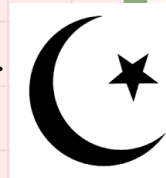

Fire! Fire!

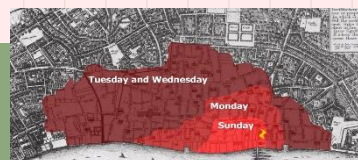

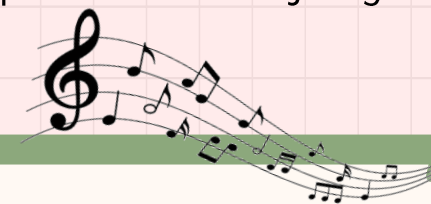

Religion and World Views:

- A family is two or more people connected by biology, adoption, marriage or strong emotional bonds. Families often follow one religion together.
- Islam is a religion followed by Muslims.
- Muhammad (pbuh) is the most important Prophet (messenger) for Muslims.
- Muslims learn from Muhammad's (pbuh) life & example.
- The Qur'an contains the holy words of Allah.

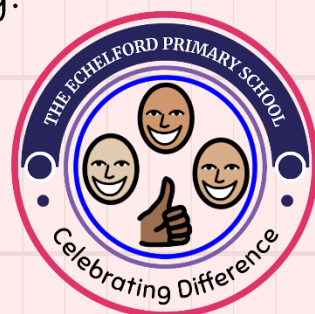

Music:

- Sections of music can be described as fast or slow - tempo.
- Sections of music can be described as loud, quiet or silent - dynamics.
- In all pictorial representations of music, representations further up the page are higher sounds and those further down are lower sounds.
- Pictorial representations of rhythm show sounds and rests.

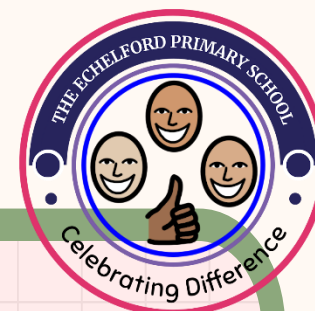

PE:

- I need to slow down to a jog before changing direction.
- When I throw with one hand, I have the opposite leg forward to my throwing arm and my fingers point in the direction of my target.
- I know to stand with my body side-on with my face looking at my target when throwing for distance.
- I stand with my feet hip width apart, bend my knees and my elbows in order to balance and jump successfully.
- I transfer my weight upwards and forwards to spring off the floor. When I land, I bend my knees, have my arms straight out in front of me and lean forwards.
- I contract my muscles to help me to control my jump and landing.
- There are rules I need to follow to play a game successfully.

Fire! Fire!

PSHE:

- Identify different members of the family and understand my relationship with them
- Understand what is acceptable physical contact and what is unacceptable physical contact.
- Identify some of the things that cause conflict with my friends.
- Demonstrate problem solving techniques to resolve conflict with peers.
- Recognise and appreciate people in my family, my school and my community.

Computing:

E-Safety:

- People can communicate with people they do not know in real life through email, online gaming or pen pal.
- Communicating with people you do not know in real life may be risky as the person might not be who they say they are or might not always tell the truth.
- A trusted adult should be asked before sharing things online about yourself or others.
- A trusted adult can help me if something happens online without my consent.
- Other might feel upset or frustrated if I do not ask their permission or ignore their answers before sharing something about them online.

Scratch Junior:

- A simple program is a set of instructions that complete a task.
- A bug is a problem within an algorithm and it needs to be identified, corrected and tested for the code to work.
- Debugging means to identify and remove errors in a programme.
- To debug the code, there might be lots of possible errors. To check if the code has been debugged, we need to test the new code and amend if necessary.
