

## Weekly Homework

Each week, I will be set a Maths and Literacy task. This will be linked to my learning from that week. I will bring this home each Thursday and bring it back on Tuesdays for my teacher to look at.

I will read for 5 minutes every night. This could be from my school books or 5 minutes of a book, newspaper, comic book, recipe book or anything else I love to read at home! Please make a note of this in my Reading Record. If I read 5 times in a week, I get a special sticker!

What else could I do at home that links to my amazing learning in school? Here are some *optional* ideas for us to try. My teacher said I can bring them in if I would like to so they can have a look but there is no expectation for this.

## Places to Visit

You could visit a local aquarium to link with our Under the Sea topic, such as: SEA LIFE London Aquarium. You could also visit your nearest beach: Wittering beach or Littlehampton beach. You can visit excellent nearby inland beaches like Frensham Great Pond.

Could you visit your local library and find a book about sea creatures, coral reefs, or deep-sea divers. You can visit a local aquatic centre or pet shop and see if they have any colourful tropical fish or marine plants in their displays.

You can see which local parks, wetlands, or waterways have the best aquatic habitats to spot pond-life, such as: WWT London Wetland Centre or your local river or canal path.

# Year R Homework Web

## Summer 2

### Crafts

Create some bubble blowing art

Make an ocean in a box. You can add real shells.

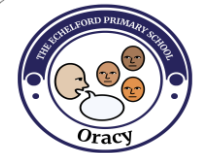

Can you paint or draw pictures on smooth stones.

### Oracy Ideas

In school, I have been working hard to improve my Oracy skills. We have been learning how to instigate conversations by saying things like 'I would like to start by saying...' or 'I think...' and then giving a reason for our answers by adding 'because'.

Here are some ideas of discussions we could have at home to practise these skills:

Would you rather swim with a **playful dolphin** in the warm shallows or a **speedy shark** in the deep ocean?

Would you rather have a **shiny starfish** live in a rockpool or a **tickly octopus**?

Would you rather find a **baby turtle** on the sand or a **friendly seal**?

Can you describe any ocean animals you know such as a **blue whale** or a **scuttling crab**?
