

## Weekly Homework

Each week, I will be set a Maths and Literacy task in my white CGP books; this will be linked to my learning from that week. I will bring this home each Thursday and bring it back on Tuesdays for my teacher to look at. I also need to do 10 minutes of Times tables Practise on the website/app TTRS. My log in is in my Reading Record.

I will read for 5 minutes every night. This could be from my banded book that I will bring home from school or 5 minutes of a book, newspaper, comic book, recipe book or anything else I love to read at home! Please make a note of this in my Reading Record. If I read 5 times in a week, I will get 5 minutes extra breaktime.

What else could I do at home that links to my amazing learning in school? Here are some *optional* ideas for us to try. My teacher said I can bring them in if I would like to so they can have a look but there is no expectation for this.

## Places to visit:

### Guildford Castle

This is your absolute best local bet for a proper Norman/medieval experience. The Link: [It was originally built by William the Conqueror right after 1066.](#) KS2 Features: Children can scale the steps of the Great Tower (the keep) to see where medieval kings stayed and gaze out over the town just like a sentry keeping watch. The surrounding castle grounds are beautiful, and there is even a medieval "Castle Arch" nearby built in 1256 that still has remnants of where the spiked portcullis gate used to sit!

### Runnymede Meadows

The actual riverside meadow where King John met the rebel barons and sealed the Magna Carta in June 1215. Children can stand at the domed Magna Carta Memorial and imagine the tense stand-off between the King and his knights.

## Year 3 Homework Web Medieval Britain Summer 2

### Crafts

### Oracy Ideas

Would you rather wear a suit of heavy steel armour that clanks every time you move, or a itchy woollen tunic that has never been washed?

Would you rather attack a castle by climbing a massive wooden siege tower, or by digging a secret tunnel underneath the castle walls?

Would you rather have the ability to talk to trees and hear their ancient secrets, or be able to make any plant grow to the size of a house in just five seconds?

Would you rather have to climb to the very top of a 100-metre-tall Redwood tree using only your hands, or crawl through a dense, thorny bramble bush to find a hidden treasure?
